

Collecting soil samples for volatile organic compounds can become very expensive and cumbersome. The o2si sample smart EPA Method 5035 product line provides innovative and cost effective means of sample collection. Each product has been rigorously tested and proven to meet the most stringent sampling and analysis criteria.

All 5035 o2si sample smart Low-Level vials are re-analyzed by EPA Method 5035 heated-purge specifications following preservation to ensure cleanliness. Each analyzed product is sent with a 5035 Certificate of Analysis.

Each EPA Method 5035 preserved vial is labeled with the tare weight and a unique vial ID number. All vials are tared with a calibrated balance checked against NIST traceable weights each day before use.

All vials are available with or without solvents. Please contact customer service so we can meet your specific needs.

Introducing o2si smart solutions' sample smart sampling device for EPA Method 5035. The sample smart sampler is an ergonomic, easy to use "t-handle" designed specifically for EPA SW-846 Method 5035. This single use sampler delivers approximately 5 grams of soil per aliquot. With the sample smart sampler the need for field weighing and additional tools (i.e. expensive sampling handles) is eliminated. This all-in-one device makes soil sampling simple!

Econo Aqueous Method 5035 sample smart Kits include:

- (1) High-level vial tared and labeled with weight and ID number
- (2) Low-level vials tared and labeled with weight and ID number
- (1) Empty evaporative loss vial
- (1) 5 g sampler

5035 Certificates of Analysis

Econo VPH Method 5035 sample smart Kits include:

- (2) High-level vials tared and labeled with weight and ID number
- (1) Empty evaporative loss vial
- (1) 5 g sampler

5035 Certificate of Analysis

Premium Aqueous Method 5035 sample smart Kits include:

- (1) Empty high-level vial tared and labeled with weight and ID number
- (1) *smart delivery* MeOH PFA tube
- (1) Empty evaporative loss vial
- (1) 5 g sampler

5035 Certificates of Analysis

Sampling Products**

Catalog No.	Description
090001	sample smart® 5 g sampler
<b>Low-Level Vials</b>	
190000-01	5 mL Bisulfate Vials, 72/cs
190002-02-01	5 mL Organic-Free H <sub>2</sub> O Vials, 72/cs
190002-02-02	10mL Organic-Free H <sub>2</sub> O Vials, 72/cs
<b>High-Level Vials</b>	
190001-07	5 mL MeOH Vials, 72/cs
190001-01	10 mL MeOH Vials, 72/cs
<b>smart delivery PFA Methanol Tubes</b>	
190001-02	10 mL MeOH in PFA tube
190001-04	5 mL MeOH in PFA tube
<b>sample smart® Kits</b>	
190004-02	Premium Bisulfate Kit
190004-03	Premium H <sub>2</sub> O Kit
190004-21	Econo VPH Kit
190004-22	Econo Bisulfate Kit
190004-24	Econo H <sub>2</sub> O Kit
190004-27	Econo six-hole H <sub>2</sub> O Kit
